

ALL FREIGHT IS TIED UP.

Twenty-four Railroads Affected by Strike.

Many of the Men Quit Against Their Will.

Warrants for Riotous Miners. Garment Workers Out—Mitchell Reluctant.

ST. PAUL, Minn., July 7.—The Chicago and North Western Central, Michigan Central and Nickel Plate. These roads control over one hundred warehouses in Chicago.

That the railroads are expecting a strenuous struggle was made evident today when the chief detective of an eastern railroad bought 100 barrels, the entire stock of a prominent firm.

Two wagonloads of new men were taken to the Illinois Central warehouse under police guard during the afternoon. Officials of the Chicago and Northwestern refused to state what the situation in their warehouses is. It is believed, however, that all their men left. Officials of the Pennsylvania road said that he had planned to go on a vacation, but that if the strike was not settled he would remain in the city.

BRINGING IN MEN.

ST. LOUIS, Mo., July 7.—It was reported tonight that the Illinois Central was bringing 400 men from the South to take the places of strikers. Other roads were said to be taking similar measures, bringing in men from the country districts or other cities on their systems.

WILL USE SECTION HANDS.

BLOOMINGTON (Ill.) July 7.—The railroads are rushing section men into Chicago to take the places of striking freight handlers. The Chicago and Alton sent seventy, mostly colored, from this city on a special train tonight. More are being sent.

NOT HURT BY STRIKE.

OMAHA, July 7.—The following statement is authorized by General Manager Dickinson and Superintendent of Motive Power Acker of the Union Pacific Railroad, who have returned from a trip of inspection:

"Conditions are good in all our shops from Ogden east to North Platte. At the latter place it was found that the entire force of machinists and boiler makers were out with few exceptions. The men at that point, however, obeyed the strike order against their will."

"All over the system we are doing all the repair work on engines needed. At Cheyenne we have a good force at work, and are doing considerable back work. In Omaha we have fifty skilled machinists at work."

"It is true that all the men at work are not railroad machinists and boiler makers, but they are skilled and high-priced workmen in general. We have as large a force of machinists and boiler makers as we would have if there were no strike, considering the size of other departments."

"The boiler makers will have been out four weeks on Wednesday, yet our boilers are never in better shape. Repairs have been kept up whenever any were needed, and the reports of dead engines are not true. No trains were delayed on account of poor engines. The only delays we have had were caused by washouts."

"Yet it is not our desire to fill the strikers' places with new men any more than is required to continue our regular service. We believe that a few of the men were led to strike by statements of their leaders that the road would be compelled to accept the strikers' demands. When the men see that this is untrue, we believe they will return, and we are holding their old places for them. But, of course, everybody must go back to work. The strike has come a long way from injuring the road, and the strikers are losing money from the loss of their services."

"The railroad officials deny that the brick masons are taking part in the strike, and say they stopped work only for the holidays and rainy weather, and are working again when the weather will permit."

"The car builders settled their differences with the railroad by accepting for one year the scale offered. The settlement was final by both sides, as the Car Builders' Union tonight ratified the agreement."

President Gompers addressed the strikers and their sympathizers at La Salle Temple tonight. He spoke for an hour, and received with enthusiasm. There were no new developments today.

WARRANTS FOR RIOTERS.

ST. LOUIS, Mo., July 7.—Sheriff HARRIS (Pa.) July 7.—Sheriff HARRIS swore out warrants today for the arrest of ten strikers at Williamstown for inciting to riot and interfering with his duties in protecting non-union men going to and from the mines at Lyons and Williamstown.

The Sheriff says the situation in the region is critical, and that if there is another outbreak like that of last Wednesday, when in the hills, they were assaulted while protecting non-union miners, he will call on Gov. Stone for protection by the militia. The Sheriff returned to the Lyons region at noon to assist his deputies in arresting the strikers for whom warrants had been issued.

QUIET AT WILKESBARRE.

WILKESBARRE (Pa.) July 7.—The ninth week of the anthracite coal miners' strike opened extremely quiet. Conditions around the collieries remain unchanged.

The mine workers' annual convention for this district, which opened at Nanticoke today, is the largest in the history of the district. President Nichols is sure of a unanimous reelection.

MITCHELL RELUCTANT.

NEW YORK, July 7.—President Mitchell of the United Mine Workers of America, who arrived in New York last night, said today that the purpose of his visit was to see some friends, who were to sail for Europe tomorrow.

"It is your purpose to see certain people for the purpose of settling the strike, or for effecting a compromise?" he was asked.

"I shall decline to discuss the strike question," said Mr. Mitchell.

WILL SPEND A MILLION.

NO SURRENDER TO UNION.

WINNIPEG (Man.) July 7.—Canadian Northern trainmen, including conductors, presented a schedule today and demand recognition inside of thirty-six hours. The engineers, who are on strike, will not accept the schedule, and will likely come to some decision. Mr. McKenzie of McKenzie & Mann, owners of the property, says the road will spend a million dollars before any organization will be recognized. The Northern company has imported sixty men from the south to replace the strikers.

HELENA (Mont.) July 7.—The trouble at East Helena, between employees of the American Smelting and Refining Company, and the corporation this afternoon was adjusted, and the men will go back to work tomorrow.

The union is not to give preference to old men and to discriminate against new ones. The men on their part agreed to work one year from May 1, 1902, at the old scale. The strike has been formally declared off. About 600 men are affected.

GROUND IS BROKEN

GOOD REPORTS COME FROM THE
CHAMPION AND FITZ.

THE NEW ASSOCIATED PRESS—P.M.
SAN FRANCISCO, July 7.—Ground
was laid today for the erection of
a boxing arena at Fourteenth
and Mission streets, where Champion
and Fitz will meet Bob Fitzsimmons
on July 25. The San Francisco
Club, which is to bring off the
match, has a contractor at work
to complete the structure
by May 21. The plans for the new
arena embrace several innovations,
and it will be the plain sight of
all who attend the fight. There is
a seating capacity of 8000, with
special facilities for lighting the ring,
and for training and from
John Harbin Springs, where Cham-
pion and Fitz are training, and
from "Lanky Bob" is pre-
paring for his life's struggle, comes
the report that both pugilists are bending
their work with increased zeal, and
since their momentary relaxation
on the highways for the accus-
tomed to the training of the
where trainers pit their skill
against the fighters.
Curry, who is now sojourning
in the neighborhood of both train-
ing places, says he expects his brother
to reach here soon. A large con-
tingent of sporting men is gathering
at the club, and all are anxious
to see the fight. Under whose aus-
pices the heavyweights will battle, will
be here for both camps in a few
days. He proposes to study the condi-
tion of both men, and to put on the
weight with them.

letic.) In consequence of the an-
number of competitors for the
silver cups, and in order that none
of the heavyweights will be obliged
to run heats the same day, three
steeple races will be decided this
evening at 8:45.
Titus of the Union Boat Club
of New York, beat Louis Scholles of
the Rowing Club of Toronto in a
race for the silver cups, and won
by a length and a half. Time 3:32.
Scholles, however, spurted
at the end of the race, and was
within a few feet of the winner.
The biggest lead Scholles
was three-quarters of a
mile in a half a mile, and was
within a few feet of the winner.
The race was a great sport, and
almost every one was cheering.
The winner, Titus, was a very
fine horse, and almost every one
was cheering.

race. After a few strokes had

calm, and the wind was just
what was needed for the race.

MITCHELL, VERY SICK.

THE NEW ASSOCIATED PRESS—P.M.
ENGLAND, July 7.—(Exclusive Dis-
patch.) According to a private cable-
received in this city from Eng-
land, Mitchell, the champion of
England, is a very sick man, and
is at the home of his father.
He is suffering from three phys-
icians, and is suffering from effects

nervous shocks, which the physicians
say may carry him off at any time.
Few people in England are aware of
Mitchell's precarious condition, as his
physicians have ordered that news
of his sickness be kept as quiet as
possible. They say their patient must
have absolute rest. While the phys-
icians entertain hope for Mitchell's re-
covery, it is learned from a reliable
source that he may not live the week
out.

Games and Standing Go

Internal and Other Troubles
of Los Angeles Team—
Last Straw.

The whole trouble seems to be that
no one knows what it is.
The serious question, "Why is a
cow?" is as easy as kicking a dog
compared with knowing why Los An-
geles is not a mile ahead of the
league, and that he cannot compete
with big eastern clubs, who might
offer any of his players higher sal-
aries. He denies the assertion that his
players do not take care of them-
selves, and says the games they lose
are such as are lost in the usual run
of baseball luck. He admits he needs
a few more pitchers,
for he is weak
in that department
now. His expe-
rience with Rube
Waddell is well
known, and the
Merced incident is
recent. Morley
says Morley com-
mitted faithfully to
come to Los An-
geles and on this
promise he
turned home without
looking for an-
other pitcher.
It was simple
enough to win games in those days,
for Rube was at his best, and the
team ably seconded his efforts in the
box.
Under the inspiration of such a
pitcher, the players put up a good
article of ball for many weeks, and
then disaster struck. In some
game the players were
released for good
cause, and the team
was left with high
hopes and multitudes
of strong roots. The
cause of the disaster
was not the pitcher,
and it was pred-
icted that, with
his aid, the Los-
angeles would easily
win the pennant.
Who knows?
There was a time
when this question
would have been a
silly one, as there
was no occasion
for it. Los An-
geles started the
season last April
with high hopes
and multitudes
of strong roots. The
cause of the disaster
was not the pitcher,
and it was pred-
icted that, with
his aid, the Los-
angeles would easily
win the pennant.

time taken when a quarter of a mile
away. If the vehicle arrived at the
finish line at a rate of speed that
showed it was traveling at more than
eight miles an hour, it was halted, and
the driver arrested.

THE RARE HUMOR OF BEING TAXED.

AFTER vain indignation and excited
protests, the man finally admitted
that he had a piano.
The man had money enough to buy a
piano every day, but it hurt him when
the tax assessor said he had to pay
for it. He said it was a very bad piano.
He said it was a very bad piano. Oh
it was a rotten piano. It was hardly
worth while calling a piano at all.
What was it worth? Well, really he
could hardly set a price on it, but he
would call it \$50 just to feel that he
was contributing liberally to the sup-
port of the commonwealth.
Mr. Ward gave him a stony stare.
"I have been wanting to buy a
piano," he said. "I guess this is my
chance. I don't suppose you would
mind selling that piano. Say \$100. I
will give you \$100 for it."
The color faded out of the man's face.
The man gasped. The man wrigled
in his chair. The man turned in his
seat. The man hemmed. The man
hewed. The man at last jammed his
hat down over his ears and made a
break out of the office. As he fled he
muttered darkly, "I will have to be
my wife. I don't ever sell the piano
without asking my wife."

Enough anybody!

enough to give us a list of your per-
sonal property and its value.
The woman gave him a scowl.
"Twenty dollars worth of firearms,"
she said and swept out.

There was one new on the grill. His
fortune had suddenly shrunk to such
an alarming degree that the Assessor
feared he was on the way to the Poor
Farm.

Out of sweet sympathy he made a
few pertinent inquiries.
The old man sat on the edge of his
chair, bolt upright, and squealed out
protests. His cigar was puffing like a
freight climbing a wet track on the
Tehachapi grade.

"What you ask me such questions
for?" he squealed. "I have been here
forty years and I never been asked
such questions before."
"I believe it," said the Tax Assessor
grimly.

The old man roared and kicked and
snorted.
By and by he got up and fled.
A little while afterwards his son-in-
law came in, looking scared.
"What has you been doing to do old
man?" he asked.

"What's the matter?" asked the Tax
Assessor.

"I dunno; he's awful bald. He feels
as if he's been up here telling me
about his taxes."
"He's dreadful conscientious," said
the son-in-law, apprehensively.

"Does the climate agree with your
husband?"
"Well," said the woman with her
gentle and patient expression, "my hus-
band is sometimes a little difficult to
please. His ideas are so high, you
know. I am sometimes not sure whether
the climate disagrees with him or
whether he is disagreeing with the cli-
mate."—Washington Star.

TAKE FIRST PRIZE

**BREAK THE WORLD'S DRILLING

Fourth of July the Coolest Known
in Phoenix—Hercule Experiments in
Treatment of Consumption End in Dr.
Robbins' Death.

SPECIAL CORRESPONDENCE OF THE TIMES
PHOENIX (Ariz.) July 6.—The chief
event of the collateral programme of

The Fourth in Dibbee was a drilling contest, between teams of sturdy miners from all over the West. The first prize, curiously enough, considering the day, was won by a pair of British soldiers, from Whistler and the British Columbia who, after fifteen minutes, sunk a hole 41-23-23 inches deep in a block of Gunnisban granite, the same block that had been used in the miners' drilling contest at El Paso. This was the world's record of 24 inches, more than the American members in and Malley. The latter team also participated in the Dibbee contest, and beat its own record, drilling 41-8-8 inches in 15 minutes. The 1914 Prescott celebration was the participation of the soldiers from Whipple Barracks in competitive drills and maneuvers.

The Fourth in Phoenix was marked

in that its temperature record, with a maximum of 85 deg., was the lowest since the weather bureau was known to the Weather Bureau records. It followed the hot spell of last month, the weather for the past week has been remarkable mildness. According to Section Director Burns of the Weather Bureau, it is about time for a change. Last year closed with a record of 200 deg. of average excess temperature. The first six months of 1902, the excess temperature to July 1 amounting to 115 deg.

HUNDREDS OF FEET
TO CERTAIN DEATH.
RIVERSIDE BOY'S TRAGIC FATE IN
DESOLATE REGION.Details of Walter Harold Ray's End
While Ascending Mount Brewer—Body
Carried Far to Civilization and Buried
Yesterday.

RIVERSIDE, July 7.—The funeral of Walter Harold Ray, the seventeen-year-old son of Mr. and Mrs. W. S. Ray, whose remains were brought here yesterday from Fresno by his uncle, E. S. Moulton, was held this afternoon at the family residence. Young Ray met with a tragic death last Tuesday in the Kings River country, while attempting the ascent of Mt. Brewer. His companions on the trip were Tracey A. Kelley of the Lowell High School, San Francisco; Robert Pike and Will Bettner, also of San Francisco. The east side of Mt. Brewer is almost perpendicular. When approaching the summit, a snow patch was encountered. In getting around it, Ray stepped onto a loose boulder. He lost his footing, and was precipitated over a cliff, a sheer fall of over 300 feet. Of course, death was instantaneous. The accident occurred in a wild and desolate region, remote from civilization, and the task of getting the remains out was most difficult. The body had to be carried fifteen miles to where the burials had been made, a walk of some six miles by burro to Millwood, thence nearly fifty miles by stage to Sanger, on the line of the railroad.

ELECTION TODAY.
The \$150,000 Courthouse bond election will be held in city and county tomorrow. The measure will surely carry, if the voters are not apathetic. It is desired that a large vote be polled. Whatever opposition to the bonds that may exist, has been kept close under cover.

NEW HOME PLACE.
A beautiful new residence section is to be laid off on the west side of town, as a result of a sale, recently consummated by Robert Lee Bettner, of the Rubidoux Heights tract, to a syndicate. The land embraced in the purchase includes the whole of the heights and hill, lying west of Pepper street, and extending north from Eighth street to Fifth. The tract,

which commands an elevated position within half a mile of the business center of Los Angeles, will be extensively improved. Streets, driveways and sidewalks will be built, sewers laid, and electric light and water connections established. The entire tract will be planted to trees and shrubbery, under the supervision of the landscape gardener. The lots will be large, and will be sold only with building restrictions and guarantees. The purchasers own the whole of the large tract, except the property at the west end of Seventh street, which was purchased last winter by C. Loring of Minneapolis, who plans to build a beautiful residence on the site. The purchasing syndicate consists of H. Dudley of Ocean Park, H. H. Hays, J. A. Whittier and Robert Lee Bettner of Riverside.

SANTA BERNARDINO.

SWIFT COURT PROCEDURE.

SANTA BERNARDINO, July 7.—A suit based on an alleged violation of contract, went through Judge Oster's court at record-breaking speed today. Six minutes after the complaint was filed by Delmont Locke, the answer of the defendants, Francis A. Smith, et al., executors of the estate of William Smith, deceased, was filed. The answer admitted all the allegations in the complaint, and judgment was rendered the plaintiff by consent. The complaint alleged that the plaintiff had contracted to purchase seven acres of land from Smith in 1899, for \$250,000, and that the defendants had refused to perform the contract, and that the plaintiff was entitled to the return of the money paid.

FOREIGN CONFESSIONS.

SANTA ANA, July 7.—The doors of the State's prison yards for C. A. Faris, the young man who recently represented here that he was foreman of the Los Alamitos beet-sugar factory, and abused the confidence of business men. Faris was apparently not satisfied with the deceit he had practiced, and before he left he forged the name of J. R. Slack, as indorser, on a note for \$10. That proved his undoing. He was brought back yesterday from Fort Bagg, and today he was bound over to the Superior Court, his bonds being fixed at \$2000. Faris today admitted his guilt in the presence of several persons, and expressed regret for having violated the law. There is a belief among those who saw most of Faris while in this vicinity that he is mentally unbalanced.

CUT BY A SAW.

Armo Dishan, an employe at Pease & Henderson's planing mill, got his arm too close to a small circular saw today. The saw caught his sleeve, and the next instant it ripped through the fleshy base of the thumb and the fore arm, making two ugly wounds. He was removed to a physician's office, and the wounds are serious, but not before considerable blood was lost.
